Worldwide

**Crafting Excellence
in Animal Nutrition.**

Our state-of-the-art facility operates under globally recognized certifications, ensuring **purity, consistency, and compliance** at every stage.

Certifications, Infrastructure & Trusted Excellence

Our Certifications

GMP Certified – Ensuring consistent quality and manufacturing safety.

ISO Certified – Upholding international process and documentation standards.

HACCP Certified – Maintaining stringent hygiene and control systems.

AYUSH Certified – Regulatory compliance for feed safety.

Our Manufacturing Divisions

- Powder Section
- Liquid Section
- Granules Section
- Bolus Section

All sections function under independent QA supervision and an integrated supply chain ensuring **purity, consistency, and on-time dispatch**.

Why Choose Ivy Herbals

- ✓ All forms under one certified roof
- ✓ Custom formulations & R&D-backed innovation
- ✓ Reliable raw material sourcing network
- ✓ Premium & farm-tested packaging solutions
- ✓ Dedicated project coordination & formulation support
- ✓ Trusted by feed companies & veterinarians across India

Our 4-Step Manufacturing Process

Step 1

Choose from our specialized formats — **Bolus, Powders, or Liquids.**

→ Our experts guide you to select the best form for your animal segment and market focus.

Step 2

Select from our proven formulations or customize one for your brand.

→ Backed by veterinarians and field-tested ingredient combinations for measurable results.

Step 3

From durable HDPE jars to stylish pouches and sachets — we provide **functional, market-ready, and premium packaging.**

→ Label design and mockups are available on request.

Step 4

Production begins only after formula and packaging approval.

→ Each batch undergoes strict QA, documentation, and safe delivery protocols.

Bonus

We assist in **label design, ingredient documentation, and regulatory compliance** (AYUSH, BIS & export requirements).
